**Juveniles on Parole Reinforcement Status**  
January 2001 through July 2001 by Intake Date

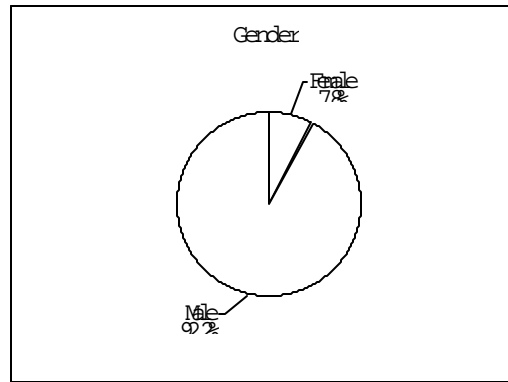

Parole Reinforcement is for some of the juveniles who have been released from secure custody to community supervision that did not comply with their release conditions. There were 487 juveniles returned to the Arizona Department of Juvenile Corrections between January 2001 and July 2001 for a revocation hearing, 36.8% (179 juveniles) were placed on Parole Reinforcement. By definition, Parole Reinforcement is for juveniles found "proven" of an administrative or delinquent offense by an ADJC Hearing Officer. They remain on Parole status, however, they are assigned to a Parole Reinforcement facility (Sunrise Mountain School for males and Independence Parole Violator Center for females) so staff can determine why they didn't comply and help them succeed on their subsequent release to the community. This fact sheet is the first attempt to report on this innovative ADJC program.
